

MUFFLERLIST 2017

For any enquiries please refer to:
muffler.homologation@efra.ws

March, 12th 2017

Enclosed the new muffler list for 2017. Because of new rules that were made valid in 2013 the list will be different every year. Some of the older mufflers have disappeared and more will follow. From now the responsibility on the noise production is up to the driver. Using one of the mufflers on the list does not mean that you are within the limits. The noise production depends on a combination of motor/muffler/manifold/ins-box/gearing/performance and body. The more RPM are produced the more noise in general.

EFRA will start measuring noise limits at various races to show the drivers their noise production during the coming years. We are improving our measurement systems from year to year and as soon as our system works satisfied we will start taking out some of you who are the loudest. Finally a penalty can be given to those not respecting the noise limits. This is a different approach compared to the last 25-30 years, however this is the only solution to bring the level down. All mufflers on the list will be valid for a period of 2 year and then a renewal by the manufacturer has to be made to EFRA again. This gives better control and the more noisy mufflers will easily disappear in the future.

At the end of the list you see a sample of the EFRA9901/2006 and 2015 with a picture. We have also listed some of the measurements here, including the weight. The weight is there to avoid the production of mufflers with thinner or different material. Thinner material normally will produce more noise. Within the next weeks pictures from all the mufflers with their dimensions and weight will be added to complete the list. Length and diameter are the maximum values. Some mufflers have a cosmetic change compared to those produced some years ago, which means they are slightly different looking, however functional measurements are still the same. See picture EFRA9901 with extra reinforcement for tailpipe.

For GT racing, please take care with silicone or rubber extensions on the tailpipe. Some drivers use these extensions to avoid oil inside on the body and your left rear tire. Often this will generate more noise and/or effect your settings.

	1/8th MUFFLERS for 2017	type	valid till
EFRA9901	NovaRossi		dec-17
EFRA2006	NovaRossi		dec-17
EFRA2015	NovaRossi / R&B		dec-17

EFRA MUFFLERS 2015 DATA SHEETS

EFRA9901

NovaRossi

Valid till 31-12-2017

68,5 gramm

38 x 156mm

tailpipe 26mm

All Dimensions +/- 1mm

MUFFLERLIST 2017

For any enquiries please refer to:
muffler.homologation@efra.ws

EFRA2006

NovaRossi
Valid till 31-12-2017

59,5 gramm
37 x 156mm
tailpipe 25mm

EFRA2015

NovaRossi
Valid till 31-12-2017

61 gramm
37 x 155mm
tailpipe 25mm

More information and pictures of the remaining mufflers will follow in a few weeks.

Sander de Graaf
EFRA Muffler homologation.
