

MUFFLER LIST 2022

March 3rd, 2022

Enclosed the new muffler list for 2022. Because of new rules that were made valid in 2013 the list will be different every year. Some of the older mufflers have disappeared and more will follow. From now on the responsibility on the noise production is up to the driver. Using one of the mufflers on the list does not mean that you are always within the limits. The noise production depends on a combination of motor/muffler/manifold/ins-box/gearing/performance and body (exhaust hole in the body).

EFRA will measure noise limits from time to time at various races to show the drivers their noise production during the coming years. We are improving our measurement systems, the same as used in 5th scale from year to year. Drivers that make too much noise (more than other drivers) can be instructed to check and change their motor/muffler/header combination and/or can be penalised. This is a different approach compared to the last 25-30 years however, this is the only solution to bring the level down or keep it within limits. All mufflers on the list will be valid for a period of 2 year and then a renewal by the manufacturer has to be made to EFRA again. This gives better control and the noisier mufflers will easily disappear in the future.

At the end of the list, you see samples with a picture of all the mufflers on this list. We have also listed some of the measurements here, including the weight. The weight is there to avoid the production of mufflers with thinner or different material. Thinner material normally will produce more noise. Within the next weeks pictures from all the mufflers with their dimensions and weight will be added to complete the list. Length and diameter are the maximum values. Some mufflers have a cosmetic change compared to those produced some years ago, which means they are slightly different looking, however functional measurements are still the same. See picture EFRA9901 as sample with extra reinforcement for tailpipe. **All SECTION CHAIRMEN have the drawings that belong to a muffler in their possession.** This way they can check dimensions on trackside.

	1/8th MUFFLERS for 2022	type	valid till
EFRA9901	NovaRossi		Dec-22
EFRA2015	NovaRossi/Gimar		Dec-22
EFRA2034	Hipex		Dec-22
EFRA2041	Mielke / Maxima / RMV / Corally		Dec-22
